She explained she had been instructed to obtain cover as she had at the mares most recent start, however, on that occasion she had been unable to do so and elected to push forward. She added given the speed of today's event it was her intention to be able to sit in behind TYCOON QUEEN and INFINITY QUEEN on jumping and settled on pace with cover, however, due to how the mare began she was unable to do so as SCRUM had improved to her inside quickly to take up a position to her inside. She further added from that point she felt it would be detrimental to her mount to push forward given the speed and considered restraining her mount would also not be in the mare's best interest and for this reason elected to sit three wide without cover as her mount was travelling comfortably.
