**AGE & SEX ALLOWANCES FOR THREE-YEARS-OLD**  
 All weights on the ratings based handicapping template treat horses as at full maturity as a 4yo horse. The reason for this is to provide equal opportunity for all horses which have achieved an equivalent standard of performance to be rated alike with the older horses for balloting purposes.  
 Although "rated" as 4yo, the 3yo's will receive a weight allowance which varies from 2kg early in the season to a nil allowance toward the end of season when they race against the older horses. Also, when fillies and mares race against male horses they shall receive a 2.0kg weight allowance. A filly shall receive both an age and a sex allowance.  
 Example: A 0-75 race in August has a 4-Y-O horse, A 4-Y-O mare, a 3-Y-O colt and a 3-Y-O filly. The handicapper has assessed all horses as being equal in ability and rated each on a rating of 71 which is 59kg. In the Area 1 column.  
 The 4-Y-O boy gets the 59.0kg., the 4-Y-O mare receives a 2.0kg sex allowance and receives 57.0kg. The 3-Y-O colt gets a 2.0kg age allowance and receives 57.0kg whilst the 3-Y-O filly gets both an age allowance (2.0kg) and a sex allowance (2.0kg) and is given 55.0 kg. in the race. For the ballot all horses are equal with a rating of 71.
