After considering the evidence, on viewing the official footage and acting on their own observations, Stewards *dismissed* the protest. several occasions and over the concluding 100 metres of the event STRYKE IN STYLE was taken wider by TWO ODD SOX which continued to shift ground outwards. Having regard for the extent of the interference, where it took place, the manner in which the horses finished the race off and the margin at the finish, Stewards could not be comfortably satisfied that, but for the interference, STYKE IN STYLE would have beaten TWO ODD SOX in the event.

He added after beginning well, and with not much pace to his outside he elected to maintain his position on the rail. When specifically questioned in relation to him not maintaining his position on the rail, shortly after the entrance to the straight, he explained that the mare had changed stride on a number of occasions between the 800 metres and the 600 metres and was inclined to roll out.
